Wikipedia – Video Games

Background:

The Wikipedia website contains many informative webpages. One such page is dedicated to the top video games of all time, which can be found at https://en.wikipedia.org/wiki/List_of_video_games_considered_the_best.

This screenshot from the website shows the first five rows of the "List of Best Games" data table.

The data table did not look like this automatically though. Behind the scenes, HTML source code is used to create the table in a reader-friendly format.

The first 9 lines of the HTML source code (displayed on this page) give us information about the structure of the data table.
Pages 2-6 display the source code for each row of the table. For example, page 2 represents the video game *The Legend of Zelda: Ocarina of Time*.
